Spring Happenings

From Mike

Treasurer's report
The current checking account balance is $4310.47. There are currently 29 paid up members for 2025. Welcome new member Haroon Chaudrey who will be voted on at the May meeting.

Members are reminded that they must submit an application for membership when renewing their membership. The membership application can be found on the club website. You can print a new membership card from the website or e-mail a request to the Treasurer and one will be e-mailed to you.

Field report
The first mowing of the season took place on May 9. Thank you, Paul Corrigan! The field is beautifully green.

Mark Dobson removed the junk items from around the shed. Thank you, Mark!

On May 9 a group of members along with AMA, AVP Douglas Thompson did a presentation at River Woods Senior Living Community in Durham, NH. This was mentioned in the April newsletter. (See story on page 2)

From the President

AMA is excited to announce that we have been granted a National Authorization allowing our members at AMA club sites in Class G airspace to operate above 400 feet above ground level (AGL) for routine, day-to-day activities. Your flying site, Northeast R/C Model Club - Elmwood St, has been granted a 700 foot altitude limit.

Please note that operations above 400 feet in Class G airspace require that your AMA club retains this copy of the 2025-CBO-SPL001 National Authorization, as well as meet the outlined criteria within the Authorization. This document is in the shed.

We've been invited by the Amesbury Days committee to participate again this year. Last year we had a good time and many people stopped by the booth to see what it's all about. It was surprising how many people didn't know about the sport and that the field even existed. So if you'd like to get involved in it this year, let me know. I promise I'll get the booth set up next to the food booths for those who like carnival food.

Next Meeting: Saturday, May 17 at 9:30 am at the Field

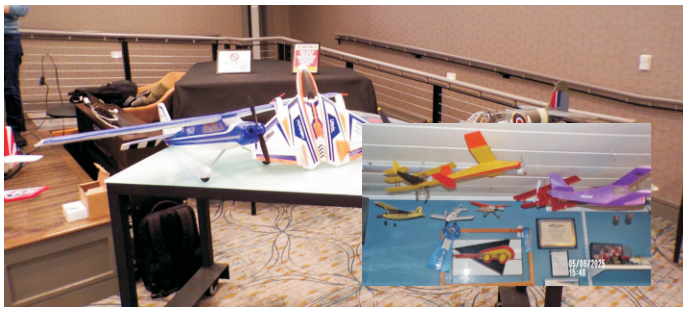

RiverWoods Presentation

On May 9 the club gave a presentation at RiverWoods Senior Living Community in Durham, NH. This is an excerpt from The AMA District 1 Facebook page by AMA, AVP Douglas Thompson.

An amazing day today, through a collaboration with the Northeast RC Model Club (NRCMC) and staff at RiverWood in Durham, NH. President Ron St. Germain and NRCMC members presented to RiverWood, a vibrant retirement community, captivating an audience of about 20 residents for an hour. Ron's powerpoint presentation beautifully highlighted the hobby's appeal as both an individual pursuit and a social activity. The residents' insightful questions were met with informative responses and engaging anecdotes.

See pictures below & at right - pictures are also on the website

Mike Dascoli's Hangar

Mike has been busy building and flying rubber powered models. Ron helped out by 3d printing a winder for him.
