AMA COULD USE YOUR HELP:
A NEW COLLECTION received in June 2025 contains photographs of model aircraft and aeromodeling events, newspaper clippings from the Massachusetts and New Hampshire areas, and an event program. Because we do not know the name of the person who originally collected all of the items (the donor was not the original collector), the name of the collection reflects its contents: 1950s-1970s Aeromodeling Photographs and Papers Collection, #0533. We've shared these Air Force photographs here, and you can also find them in the Museum's Digital Collections at www.modelaircraft.pastperfectonline.com. Based on the images and descriptions presented in this article, can you help us verify whether they were taken at a Nats, identify the year or location, or identify people in the photos? Go to https://www.modelaircraft.org/ and look at the News Highlight section for more about this.
